

FIELD SERVICE

BALANCED PERFORMANCE IS BETTER PERFORMANCE

Mitsubishi Heavy Industries Compressor International provides around the clock field support for mechanical drive steam turbines and centrifugal compressors of all makes and models. Planned or unexpected, our teams mobilize to your sight to provide a variety of customized services designed to mitigate your risk, improve performance, and reduce outage time frames.

SUPERVISORY SERVICES

- New unit installation
- Commissioning and start-up
- Emergency support

TURNKEY SERVICES

- Early turnaround project planning
- Asset management support
- Scheduled and emergency outages
- Installation for OEM & non-OEM equipment
- Footprint replacement
- Project planning and execution
- Field machining and welding
- Overhauls
- On-site customer training: Operation/maintenance of steam turbines and compressors

PROJECT PLANNING

Meticulous planning at the onset of your project is key to a successful, on-time turnaround. That is why our field support team places a significant focus on project planning. By working closely with you, we come to understand your full work scope and deliver detailed plans designed to keep your project on schedule and on budget.

- Technical Field Advisors (TFA)

- Project Managers
- Project Engineers
- Planners and Schedulers
- Safety Representatives
- Quality Representatives
- Millwrights, welders, pipe fitters, mechanics

SERVICE CENTER SUPPORT

We back all fieldwork through our state of the art repair and service facility, Pearland Works. Along with a full service workshop, we deliver customer specific asset management and 50,000 ft² of hanging rotor storage.

AVAILABLE AROUND THE CLOCK

We are available 24 hours a day, 7 days a week to meet your needs. For immediate support, contact our field service hotline at 713-265-7008.

For more information about our Field Service capabilities, contact your sales representative or email us at service@mhicompressor.com.
